

Lucas Coutinho

Senior Frontend Engineer | Angular | Microfrontends | AWS São Paulo, SP, Brazil |
lucascgs1@hotmail.com | [linkedin.com/in/lucascgs1](https://www.linkedin.com/in/lucascgs1) | github.com/lucascgs1

Professional Summary

Senior Frontend Engineer specializing in Angular and microfrontend architecture, building highly scalable and performant enterprise applications. Proven track record in the financial and automotive sectors, working on highly complex projects within international, English-speaking teams. Adept at modernizing legacy systems (migrating from AngularJS to modern Angular versions) and crafting reusable architectures focused on clean code and continuous improvement. Experienced with CI/CD pipelines, AWS deployments (S3 and CloudFront), and seamless REST API integrations.

Core Competencies

- **Languages & Frameworks:** Angular (2+ to 20), TypeScript, SCSS, React Native, Redux.js, RxJS, NgRx, .NET Core.
- **Architecture & Integration:** Microfrontends, REST APIs, Reusable Components, Single Page Applications (SPA).
- **DevOps & Cloud:** AWS (S3, CloudFront), Jenkins, Azure DevOps, GitHub Actions, Gitlab.
- **Methodologies & Testing:** Scrum, Kanban, Jira, Karma, Jasmine, Postman.

Professional Experience

act digital | Bilingual Senior Frontend Engineer *November 2025 – Present*

- Developing a microfrontend architecture for BMW's MyAccount platform, utilizing Angular 20 to integrate new features into a legacy base.
- Collaborating daily with an international distributed team, communicating effectively in English.
- Leading the migration of monolithic components to an MFE architecture and managing updates for shared UI and Service libraries.
- Creating database scripts for targeted data insertion and manipulation.

Numax | Frontend Developer *March 2024 – June 2025*

- Developed and maintained dynamic enterprise web applications, spearheading the migration from AngularJS to Angular 18.

- Optimized technical performance by building customized libraries and executing continuous code refactoring.
- Automated build and deployment workflows using Jenkins and Azure DevOps, publishing directly to AWS (S3 and CloudFront).

GFT Group (Assigned to Banco Santander) | Frontend Developer *September 2022 – April 2023*

- Built interactive web applications in Angular, seamlessly integrating frontend interfaces with RESTful APIs via HttpClient and RxJS.
- Ensured application reliability by implementing automated test coverage with Karma and Jasmine.
- Managed Continuous Integration and Deployment (CI/CD) pipelines via Jenkins within a Scrum/Jira agile environment.

Qintess (Assigned to Banco Pan) | Frontend Developer *March 2022 – September 2022*

- Engineered modular components in Angular, utilizing NgRx for advanced state management.
- Applied rigorous code review and refactoring techniques, optimizing banking applications for security and performance.
- Documented architectural requirements and technical specifications in Confluence to align stakeholders and technical teams.

NTT DATA Europe & Latam (Assigned to Banco Itaú) | Mid-Level Frontend Developer *May 2021 – March 2022*

- Developed Angular-based UI components and managed complex REST API integrations.
- Participated actively in technical "war rooms" to deliver rapid solutions for critical system issues.
- Trained and mentored junior developers to enhance team velocity and technical capabilities.

Tecnologia Unica | Junior Fullstack Developer / Intern *February 2018 – September 2020*

- Built responsive interfaces using AngularJS, Angular 2+, and mobile-first components using Ionic.

- Developed microservices architecture and backend APIs using .NET Core and .NET Framework, integrating with SQL Server and AWS DynamoDB.

Anapro | Consultant *March 2017 – December 2017*

- Delivered technical software support and acted as the primary liaison between business units and the engineering team.

Education

- **Postgraduate Degree, Front-end Engineering** | FIAP (*August 2024 – July 2025*)
- **Associate's Degree, Systems Analysis and Development** | FIAP (*January 2020 – December 2021*)
- **Professional Certificate, Graphic Design** | SAGA (*2015 – 2016*)
- **Technical Degree, Business Administration** | ETEC de Cidade Tiradentes (*2012 – 2014*)
